18300 W. Hwy 72
Golden, CO 80403

Dear Mr. McKay,

In response to your request, attached is a schedule of activities required at the West Spray Field. The West Spray Field is an area which received spray irrigation water from a surface impoundment regulated under provisions of the Resource Conservation and Recovery Act (RCRA). In accordance with RCRA permitting requirements, a Post-Closure Permit Application which includes plans for "closure" of the area, was submitted to the Colorado Department of Health (CDH) and the Environmental Protection Agency (EPA) for review and comment in November, 1986. A supplemental plan for sampling of the soils in the West Spray Field was submitted to CDH in February 1987. CDH approval of the plans and issuance of a permit is required by law. At the time the attached schedule was prepared, CDH comments on the closure plan submitted as part of the Post-Closure Permit Application in November 1986 and the Sampling Plan submitted in February 1987 were expected in November 1987. Regulatory agency comments are now expected around the first of the year. Based on comments from the agencies, the closure and sampling plans, and the schedule, will be revised. Following approval of plans, the closure activities, including sampling and analysis, will commence.

Sincerely,

T. C. Greengard
CERCLA/CEARP Program Manager
